Important note about digiPortfolio

digiPortfolio is an investment portfolio which invests in units of underlying Unit Trusts or Exchange Traded Funds and further investments will require the investor to satisfy the Customer Knowledge Assessment or Client Account Review questionnaire.

The advantage of a digiPortfolio is that DBS manages it entirely for you. This means that you authorise DBS to make all investment decisions. The value of the units may rise as well as fall. Any past performance, projection, forecast or simulation of results is not necessarily indicative of the future or likely performance of any investment. The management fee of digiPortfolio is currently 0.25% p.a. – 0.75% p.a. calculated daily based on the daily Portfolio value on a 365/366-day year.
